PROFILE

Spanish and Colombian Industrial Engineer from Universidad de Los Andes, with a minor in Computational Mathematics. Experience in Investment Banking and high-growth technology startups, supporting M&A and capital raising transactions at Inverlink and driving strategic customer implementations while contributing to product development at Aleph, an AI-native Series B company. International academic experience in Colombia, the Netherlands, and Germany, ranked within the top 1% nationwide in both high school and university examinations.

PROFESSIONAL EXPERIENCE

Aleph (YC 21) *April 2026 - Present*

Engagement Associate

- Manage strategic relationships with partnerships and customers generating ~$1M ARR, driving implementation, adoption, and long-term success of Aleph's AI-native FP&A platform.
- Work closely with Product and Engineering teams to shape new feature development and drive product improvements at a high-growth AI-native Series B startup.

Inverlink *January 2025 – April 2026*

Investment Banking Analyst

- Closed a debt financing transaction, supporting the client throughout the capital raising process and securing funding from one of the largest banks in Latin America.
- Fast-tracked to Second-Year Analyst in recognition of strong performance and early ownership of live transactions.
- Built financial models, valuation analyses, and client materials for national and cross-border M&A and capital raising transactions across the energy, banking, real estate, and consumer goods sectors.

Early Stage Investing Experience *November 2025- Present*

Personal Project

- Early-stage investment in various LatAm wellness and consumer startups, with active involvement in evaluating traction metrics, growth drivers, and fundraising strategy.
